Do sawfish *Pristis* spp. represent South Africa's first local extirpation of marine elasmobranchs in the modern era?

African Journal of Marine Science 2015, 37(2): 275–284; DOI: 10.2989/1814232X.2015.1027269

Supplementary Appendix S1: The complete list of records and specimens for largetooth sawfish *Pristis pristis* and green sawfish *P. zijsron* located by consulting various data sources, primary literature, media, museums and local conservationists and scientists

Date	Species recorded	Likely species	Sex	TL (cm)	PCL (cm)	Weight (kg)	Locality	Latitude (°S)	Longitude (°E)	Habitat	Source and reference number
4/4/1967	<i>Pristis pectinatus</i> *	<i>P. zijsron</i>	M	112	100		The Narrows – St Lucia estuarine system	–28.34038889	32.40474722	Estuarine	ORI Biology and Ecology of Estuarine Fish Project – unpublished data
