

Supplementary Fig. 13

Supplementary Figure 13. Macrophages pre-cultured with *Asf1a* KO tumor cells show potential effect to activate T cells. Flow cytometry analysis of CD44 (A), 4-1BB (B), GITR (C), GZMB (D), OX40 (E), and ICOS (F) expression in OT-I T cells co-cultured with macrophages (for 7 days), which were sorted from a co-culture system consisting of tumor and bone marrow cells. (Ctrl, n=3; *Asf1a* KO, n=7). * $p < 0.05$, ** $p < 0.01$, **** $p < 0.0001$ (ns, not significant)
