SUPPLEMENTARY PAPERS

Australian Journal of Earth Sciences (2015) **62**,
<http://dx.doi.org/10.1080/08120099.2014.966757>

Copies of Supplementary Papers may be obtained from the Geological Society of Australia's website (www.gsa.org.au), the Australian Journal of Earth Sciences website (www.ajes.com.au) or from the National Library of Australia's Pandora archive (<http://nla.gov.au/nla.arc-25194>).

SUPPLEMENTARY PAPER

Figure A1 Combined time–space plot (Figure 2).

Sedimentary

- Conglomerate-sandstone
- Sandstone
- Dolomite
- Limestone
- Diamictite
- Sandstone-mudstone-dolomite
- Mudstone-siltstone
- Turbidite
- Black shale
- Chert

Metamorphic

- (Meta)Quartzite
- Metamorphosed 'basement'

Igneous

- Intrusion, granitic, with type / Intermediate
- Mafic intrusion
- Felsic volcanic rocks
- Mafic rift volcanic rocks
- Ophiolite
- MORB

Legend

- Rock unit code
- U-Pb zircon age / monazite age
- Detrital zircon population age
- Major deformation with amphibolite or higher grade metamorphism
- Major deformation; deformation with blueschist metamorphism
- Moderate to mild deformation
- Compressional / extensional deformation, showing direction
