Rapid Conversion of Hindered Arylsulfonates to Alkyl Chlorides with Retention of Configuration

Salvatore D. Lepore,* Anjan K. Bhunia, Deboprosad Mondal, Pamela C. Cohn, and Craig Lefkowitz

Department of Chemistry, Florida Atlantic University, Boca Raton, FL 33431-0991

Supporting Information Table of Contents

Copies of NMR spectra for:

Sulfonate intermediates (NALGs) of alcohol substrates given in Table 1: (S2 – S7)

Chloride products shown in Table 1 (entries 1 – 6): (S8 – S13)

Chloride products shown in Scheme 1: (S14 – S15)
