SUPPORTING INFORMATION

“Use of Sonication for the Coupling of Sterically Hindered Substrates in the Phenolic Mitsunobu Reaction”

Salvatore D. Lepore* and Yuanjun He
Department of Chemistry, Florida Atlantic University, Boca Raton, FL

CONTENTS

¹H NMR spectra for compounds given in Entries 2,3,8,9, and 10 of Table 1 (5 pages)

2-*tert*-butylphenyl cyclohexyl ether
(Table 1, Entry 2)

trifluoromethylphenyl cyclohexyl ether
(Table 1, Entry 3)

trifluoromethylphenyl neopentyl ether
(Table 1, Entry 8)

2,6-dimethylphenyl neopentyl ether
(Table 1, Entry 9)

2-(methoxycarbonyl)-phenyl neopentyl ether
(Table 1, Entry 10)
