

Original Western Blots (Figure 5)

Protective Proteins in Astrocytes

- (1) Control medium
- (2) hMNC^{apo sec}
- (3) Positive control

Original Western Blots (Figure 5)

Protective Proteins in Schwann Cells

- (1) Control medium
- (2) hMNC^{apo sec}
- (3) Positive control

← Erk1/2; the same blot was re-probed with the total Akt antibody

Ponceau staining served as loading control

Original Western Blots (Figure 6)
phospho-CREB in Astrocytes and Neurons
