

A

B

C

- | | | | |
|---------------------|----------------------|---------------------|------------------|
| ○ polar | → sidechain acceptor | ○ solvent residue | ⊗ arene-arene |
| ○ acidic | → sidechain donor | ○ metal complex | ⊗ H arene-H |
| ○ basic | → backbone acceptor | ○ solvent contact | ⊗ + arene-cation |
| ○ greasy | → backbone donor | ○ metal/ion contact | |
| ○ proximity contour | ○ ligand exposure | ○ receptor exposure | |
