

G2: Planning RDM Services

Kate McNeill
MIT Libraries

RDM ↔ OA

- Foster open access to information
- Focus on information products
- Compliance / funding reqs
- Publisher policies

Complexities
overlap w/
other areas
whole lifecycle
complex collaborations
RDM

DIFFERENCES

Copyright complications
end of lifecycle
more familiar
OA

Working jointly

- Communication
 - in library
 - on campus
- increased awareness
- synergies

[High-priority library project]

JOINT GROUP

Coordinate but not provide services

- + OSTP Memo
- + share personnel

meets bi-weekly

COLLABORATE

RDM Meets Open Access
(RDM = Open Access)

In MIT Libraries...

"data & specialized services"

Using the team approach

OA } office of scholarly publishing
copyright, & licensing

OA logo! who's our RDM logo?

OA ↔ Data
make services work together

use bottom-up approach but make structural

OA DATA

Partnerships in a Data Management Village

Alicia Hofelich Mohr
Lisa Johnston
Thomas Lindsay

U Minn

Researchers get alot of services along data journey

need to add data steps to research process

where are our village people?

lots of places in uni to connect

IT TAKES A VILLAGE
how do we reach researchers more?

Connectivity & Awareness

more beyond network to partners

most engaged partners

STRATEGIC FOCUS
• policy

COLLABORATION OPPORTUNITIES
• community of practice
• RDM library group
• design thinking workshops

U MINN CAMPUS

Tom L.

[College of Liberal Arts + Libraries]

how long is the new forever?

Lisa J.

Inc: data retention

- DATA VILLAGE

- doesn't happen overnight, work in progress!

how to prep data for sharing

- documentation templates
- de-identification
- DRUM repository
- curation model (distributed)
- enable / track reuse

think beyond each village

Carol Perry
University of Guelph

data management on a shoestring budget

00000
▽▽▽▽▽

training from
various sources

5 members of
data + schol comm
team

REPOSITORY
PLATFORM
Database +
DataCite

SCALE

- focus local
- not huge branding
- pilot
- small datasets

hard to
manage
staffing?

COLLABORATE

- + library
- + office of research
- + computing & communication services

DEVELOPED
SUPPORT
MATERIAL

website
modules
workshops

Planning for upcoming
DMP requirements

RDM Services

- Environmental scans
of services
 - models
 - lit review
 - brief faculty survey
 - interview deans/
dept chairs
- DMP support
- Support for new funder
requirements
- Data consultations
- Data curation

OUTREACH

Outside funding for
repository
research data canada
Seminar
advise another grant
agency on setting
up repo
consortial ~~membership~~ cells
creation of DMP
template
