Long-haul international markets will outperform through 2023 as demand continues to rebound following the relaxation of COVID travel restrictions. Domestic U.S. air travel should remain strong as well. Moderating jet fuel prices should provide some margin tailwinds for airlines this year, although non-fuel operating costs continue to rise, particularly as labor rates increase under newly signed union contracts.</p> <div data-bbox="235 667 987 703"> Like Comment Share </div>	fitchratings.com	Right

Bill sponsor Sen. Cristina Pacione-Zayas, said the bill would prompt employers to interrogate potential “unjustified disparities” between employees’ pay based on things like race, ethnicity, gender or language.</p> <div data-bbox="233 495 984 527"> Like Comment Share </div>	www.kpvi.com	Left

If these forecasts are correct, President Joe Biden has said that the United States would come to the aid of Taiwan. Although the Chairman of the Joint Chiefs of Staff General Mark Milley told leaders to tone down the rhetoric on China, the Director of National Intelligence Avril Haines testified earlier that China does not want a war, but added that “if Beijing feared that a major conflict with the United States were imminent, it almost certainly would consider undertaking aggressive cyber operations against U.S. homeland critical infrastructure.”</p> <div data-bbox="233 1293 984 1325"> Like Comment Share </div>	www.fpri.org	Independent
