Today we talked about feminism - it has inspired me to do more reading (non-fiction + non-fiction) about feminism

(particularly 'we should all be feminists' and 'Purple Hibiscus' as I don't think I have read many modern feminist works)

P.S. - also maybe some colonialism/post-colonialism reading too!

Hi @

I learnt today allegory and the importance of heavy multiple views on texts.

Especially feminism, patriarchy and white female.

Oliver Schreier was one of the first modern feminist writers.

Colonialism & colonialism led to inequality, which is the historical movement of becoming a modernistic shift/ moving from feudalism to capitalism and the rising argument made of relevance & social life.

Women are labelled as women or feminists. Labels and society's ideology and expectations are always of female. Hope you NERD can do. Be a more philosophical friend of women.

Hey Seph !!
had a great time today, Olive
Schreier is a 10/10. Hope you read
The Story of an African Farm - the
writing looks very interesting.

→ Feminism + Racism are
intertwined → shouldn't be
viewed as completely separate issues

So today you have been
learning about feminism...
And what is MINDBLOWING
is that even today women
are still being 'branded' or
labelled by being a woman.
The masculine view of
feminism is that women
are angry men without

husbands and being a
feminist is intrinsically
associated with certain
labels.
Therefore be a free thinker

Long time no see?

My advice is for you to remember the specific definitions of 'feminism', 'colonialism' and 'eco-criticism' and use their historical context to aid your exam technique.

P.S. Please enjoy your A-Levels while they last! Apparently, enjoyment and exam success are directly proportional!

Hi

the importance of finding a mid point with ideas to take care of the land. the best possible way for nature and people the climate change problems will affect us in the future. it's not a priority for here & now. not to just follow tradition but feel free to question then and adapt

people judge things like people and nature by each other. collectors may not always be selfish but should go about things in ways like this. planning or controlling the way we live. people have to take care of the world. we are all in it. we are all in it. we are all in it.

Shreya,
people will always try to 'brand' others. in 1983, Olive Schreier ~~the~~ hoped this would change. it wasn't yet. texts have 'multi-layered narratives' even they are

allegorical. try to interpret more things allegorically. 'only poetry is truth' - O.S. (poetry can capture the human condition better than reflect it). This is true.

Hey,
Being open-minded and accepting of other's cultures and understanding the idea that the ecosystem and nature is a part of that. Context is important and often overlooked.
Colonisation has a detrimental impact - mentally + physically. The destruction of culture and epistemicide should be remembered so we can learn from it.

Dear Ellie,

Write a message to your future self here. You may want to note down something you want to remember about the lecture/workshop, and comment on how you plan to use what you've learned.

I hope you can't still overcomplicate essays, it's not a slay. Please read some Schreier. Remember time motifs, clocks/bells in handmaids, constant rain, particularly according to religion.
Quot = corollary of western temporal imperialism + piece miscellany of 'local times'.
You will get into law school and have even some fashion taste.

Dear future me,
Hope you are still secure in your femininity and not afraid to shout at men when they deserve it.
Hope A-levels aren't proving too challenging and you're ok with all the stress.
Hopefully you've read the story of an African man and learned more about Olusegun Obasanjo by now.
Fuck the patriarchy always and are #happy + free.
Lots of love

Dear Chloe,

I hope your English NEA has gone well. After today's sessions I am now thinking about doing acocritical / post-colonial theory but I guess we'll find out! See you in a few months.

Dear Sophie !!

Loved how literature can be used to represent and educate people on different aspects of modern day society. Modernist works cleverly involve problems of the world in a way people can understand and empathise with.

Literature can evoke sympathy and force people to take action against a particular problem. By making issues more personable and relatable, greater knowledge on a subject can be gained. Colonisation + eco criticism very prevalent issues that require immediate action → literature can help achieve this
