

Phishing Email Detection

Thank you for considering participation in our research study. Please note that this survey **consists of five segments** which will take approximately 30 minutes to complete in total. After completing each segment, you will be provided with **a new link that you will need to click to be directed to the next one**. We encourage you to complete all five segments **consecutively without a break**, as they collectively comprise a single research study. Your responses are valuable to us, and we appreciate your time and effort!

Date: Mon, 09 Jul 2001
Subject: 2001 Internal Communications Survey

"We'd like you to fill out this survey about Enron's Corporate Internal Communications programs. Why? Because our job is to advance your job by providing internal communications tools and information that will help you work more effectively. And don't worry. The survey is confidential.

How can you be assured that completing this survey is not a waste of your time?

1. We will post all of the numerical results on Enron's corporate intranet. (Probably not the individual comments, though, because that would be way too much to read!)
2. Our programs are based on what you want, so we need your feedback to assess how we're meeting your needs and where we can make improvements.

The survey will only take you about ten minutes or less, honest. Thanks for participating. Please click on the link below. (Best viewed in Internet Explorer.)

<http://etcsurvey.corp.enron.com/wi/p0639782/i.asp?r9797&s=KQDNTHMQ&l=9>

Experiencing technical problems? If this link does not automatically launch the questionnaire:

1. Launch by copying the link above into your browser, or
2. If you continue to have technical difficulties, please send an email message to confirmit@enron.com
3. Please do not forward this link to anyone else, as it is unique for each respondent

Subject: mass ack

Greetings all. This is a mass acknowledgement to everyone who has signed on to the plan9-fans list to date, now that influx has slowed down a bit. (There are 75 people on the list right now.)

One person has suggested that the name of the list be changed to 9fans. There's already an alias for that, in any event.

The list is not being archived (that I know of). If someone wants to do it, that would be great.

Bicycling's Maintenance Repair Guide

Dear Spie,

Inside this revised popular guide, you'll find thousands of up-to-date tips to repair and maintain any road or mountain bike. Whether you have the latest model or a classic that has thousands of miles on it, both beginning and experienced riders can keep their bikes on the road longer and spend less time in the repair shop.

With this ultimate repair manual, you can:

- Build a dream bike workshop, using complete plans and comprehensive tool lists
- Fix roadside and trailside breakdowns quickly and with a minimum of tools
- Learn the principles of suspension tuning for top performance and comfort
- Set up and maintain all styles of rim and disc brakes, including hydraulic models
- Keep wheels spinning smooth and true
- Choose a frame design that best fits your body and riding style
- Discover top tricks from professional mechanics

What's new in the expanded and revised fifth edition?

- Updated text that covers the latest models and parts
- More than 250 new photos so you get repairs right the first time
- Clearer, better-designed captions so you can read as you repair
- Troubleshooting sections to quickly identify and correct common problems
- Web sites and phone numbers for dozens of bicycle and parts manufacturers
- An updated glossary with technical terms and jargon to help you understand and be understood

Best of all, you can give this amazing book a try— FREE for 21 days with no obligation whatsoever! You pay nothing unless you're totally satisfied. Click [here!](#)

Sincerely,
Chris Cunningham

Subject: Sunshine Kids Benefit Golf Tournament - March 18th

Dear Members:

NESA is pleased to be holding its 3rd Annual Benefit Golf Tournament on Monday, March 18th, 2002 at the prestigious Champions Golf Club. Proceeds will again benefit The Sunshine Kids Foundation. This is your opportunity to secure a corporate (\$2000) or individual (\$500) sponsorship which includes a foursome or a single tee time, respectively for this outstanding tournament and great cause. Attached are registration forms. NESA has been proud to donate over \$50,000 in the last two years to local charities through this tournament, and we need your help to continue to do so. If you have any questions, please feel free to email me or call me at 713/856-6525. Don't forget about our mixer on Thursday, January 31st at the Boaka Bar downtown. No cover, first drink free - can't beat it! RSVP to me if you can make it. Visit their website for directions at www.mercuryroom.com/boaka/boaka.html

From: EDIS Email Service <edismail@incident.com>
Date: Tue, 03 Jul 2001
Subject: [EDIS] 1 HOUR FORECAST [Urgent: Statewide]

From: PG&E

At 1345 the CAISO issued a 90 minute probability notice for rotating outages. The CAISO estimates outages could begin at about 1500 and last until 1700. Based on the CAISO forecast, the following rotating outage blocks could be affected: Sub Blocks 1A thru 1F and sub blocks 1K thru 1P.

Due to the dynamic nature of the electric utility system, this forecast is subject to change.

For more information contact:

From: Jason Childers <jcchilders@hotmail.com>
Date: Mon, 09 Jul 2001
Subject: Wedding proofs

Good morning, everyone.

Just wanted to let you know that we finally have some of our proofs available on-line. It isn't our whole book, but it is a fair sample. I think they got most of the pictures of you guys posted if you are interested in buying a print. I believe you can order directly from the page.

If anyone wants to see more, call Andrea or myself and we can help you out.

Steps for accessing the proofs are:

1. Point your browser to ""www.elanphotography.com""
2. From the home page, select ""Weddings""
3. From the Weddings page, select ""On-line Ordering"". This will open a new browser window to a list of weddings shot by our photographer.
4. Select the ""Childers/Luebbering"" wedding.
5. This will prompt you to enter a username and password.
Enter: username: childers password: gnirebbeul
6. Browse at will. I believe there are three or four pages of proofs. If you drill down on a picture, you can order it there.

Let me know if you have any problems accessing this site.

Later,
Jason

From: mike@srg.com.cn
Date: April 21, 2023
Subject:

Hi!

You could be in trouble with the law. This is your last chance to prevent unpleasant consequences and preserve your reputation. Your operating system has been hacked. All your personal data has been copied to my servers.

I have installed a Trojan virus in the operating systems of all the devices you use to access the Internet. This software gives me access to all the controllers on your devices.

Thanks to encryption, no system will detect this virus. Every day its signatures are cleared. I have already copied all your personal data to my servers. I have access to your emails, messengers, social networks, contact list.

When I was collecting data from your device, I found a lot of interesting information about you. You really like to watch adult videos and have orgasms while watching them.

I have some videos that were recorded from your screen. I have edited a video that clearly shows your face and the way you watch porn and masturbate. Your family and friends will have no problem recognizing you in this video. This video will be able to completely destroy your reputation.

Also on your device I was able to find data that is not allowed to be stored in your country. You could be in trouble with the law. I can send out proof of your illegal activities to all your contacts, make it public to everyone on the Internet.

I have a lot of your personal information. It's your browsing history, your messenger and social media correspondence, your phone calls, your personal photos and videos. I can put all of your data in the public domain. I'm sure that after that the police might be interested in you. And other security agencies in your country.

All it takes is one click of my mouse to make all the information you have on your device available to the public. You understand the consequences. It will be a real disaster. Your life would be ruined. I bet you want to prevent that, don't you? It's very easy to do.

You need to transfer me 1300 US dollars (USD) (in bitcoin equivalent at the exchange rate at the time of transfer). After that, I will delete all information about you from my servers.
My bitcoin wallet for payment: bc1qynu8x3d9g6a79ysxhjnt23z9fyv54negrer2l

Don't know what Bitcoin is and how to use it? Use Google. You have 2 business days to pay. After reading this email, the timer starts automatically. I've already received notification that you opened this email.

No need to respond to me on this message, this email was created automatically and is untraceable. There is no need to try to contact anyone or reply here. Bitcoin wallet is untraceable, so you will just waste your time.

The police and other security services won't help you either. In the event of these cases, I will post the entire video without delay. All of your data is already copied to a cluster of my servers, so changing your passwords on email or social media won't help.

I hope you choose the right solution.
Goodbye.

Subject: USENIX Association 1995 Technical Conference

1995 USENIX ASSOCIATION TECHNICAL CONFERENCE
January 16-20, 1995, New Orleans, Louisiana

The latest technical developments in UNIX and advanced computing systems. . .

Choose from among 20 Tutorials, attend Invited Talks, and learn details of never-before-published research in the refereed papers sessions. Don't miss Mark Weiser's keynote talk on Ubiquitous Computing. Meet your peers and discuss common problems. Discuss with industry experts in a relaxed environment. And, get a hands-on look at the latest products in the Vendor Display.

A partial list of topics includes:

UNIX Security, Firewalls, System Administration, UNIX Programming, COM OLE, BSD, Mass Store, Streams, SIFT, Tcl/Tk, World Wide Web, Libraries, File Systems, Sendmail 8, Internet Cash and Commerce, and more.

Program Chair: Peter Honeyman, CITI, University of Michigan

Subject: [UCSC Information Security Advisory] Security Update: MFA Authentication!

Welcome to Cybersecurity Awareness Month at University of California, Santa Cruz!

In today's ever-evolving digital world, safeguarding our data, and protecting our community from cyber threats is more critical than ever. This annual event gives us the opportunity to sharpen our skills, increase awareness, and reinforce our commitment to security best practices.

Starting this month, MFA will be rolled out for both employees and students across the State of California. Implementing MFA is a proactive step that will help protect not only our individual accounts but also the University's broader digital infrastructure.

Due to recent security, This email is to confirm MFA for all University of California, Santa Cruz email recipients. You're hereby required to complete exercise with the mobile number you want your MFA Authentication set to.

Scan QR Code to complete authentication.
