# gadMor1: Consequences

Gaps in genic regions -> lost exons?

# Cod genome: repeats

### Percentage of bases in 63 vertebrate genomes classified as dinucleotide tandem repeats

## Bastiaan Star

# Cod genome: repeats

Percentage of bases in 63 vertebrate genomes classified as dinucleotide tandem repeats

Bastiaan Star

# Cod: phase 2

## Existing data

454 sequencing  
~40 x shotgun  
Many mate pair libs

## New data

Illumina sequencing  
Paired end >200x  
Mate Pair 5kb >100x

## New data

PacBio sequencing  
~16x coverage  
C2, C2XL and XLXL data  
3.6 Kbp average read length

# Cod2: assemblies

Newbler: 454 + BAC ends

Celera: 454 + Illumina

Celera: 454 + raw (!) PacBio

ALLPATHS-LG: Illumina
