

Table A9. Parametric variations of materials used for Foundations Typology 1.

Foundations Typology 1 	Number of variations
Foundations to external walls (U-value: 0.15/0.12/0.09 W/m²K)	15
Insulated foundations to External Wall Typology 1 with 100-108 mm inner leaf	
Insulated foundations to External Wall Typology 1 with 180 mm inner leaf	
Insulated foundations to External Wall Typology 2 with 100-108 mm inner leaf	
Insulated foundations to External Wall Typology 2 with 180 mm inner leaf	
Insulated foundations to External Wall Typology 3	
Foundations to internal walls (3 thickness variations)	3
Foundations to Internal Wall Typology 1 with 100/150/200 mm thickness	
Total number of parametric variations (15 + 3)	18
