

Table A10. Parametric variations of materials used for each layer of the Internal Wall Typology 1.

<b>Layers of Internal Wall Typology 1</b> 	<b>Number of variations</b>
<b>Surface layer: Finish</b>	<b>1</b>
Render and paint finish	
<b>Middle layer: Heavyweight (3 thickness variations)</b>	<b>12</b>
108/162/216 mm brickwork with mortar	
100/150/200 mm lightweight concrete blocks with mortar	
100/150/200 mm lightweight concrete elements with steel reinforcement	
100/150/200 mm concrete with steel reinforcement	
<b>Surface layer: Finish</b>	<b>1</b>
Render and paint finish	
<b>Total number of parametric variations (4 x 3 x 2)</b>	<b>12</b>
