NB: Refresh the page to get a new definition. Quotes were pulled from participants from the [Day of DH](#) between 2009-2014. As of January 2015, the database contains 817 rows and randomly selects a quote each time the page is loaded. If you want to do something cool with the data, I am providing a download for the CSV I compiled [here](#).

Public Project-based Participatory

“...the digital humanities today is about a scholarship (and a pedagogy) that is **publicly visible** in ways to which we are generally unaccustomed, a scholarship and pedagogy that’s **bound up with infrastructure** in ways that are deeper and more explicit than we are generally accustomed, a scholarship and pedagogy that is **collaborative and depends on networks of people** and that lives an active, 24/7 life online.”
