

Table S2: Sequences of primers used for rs886205 target amplification

	Sequence 5'-3'	Temperature
<i>ALDH2</i> -rs886205-F	CAGGTCTCACTTGTCATTTC	59°C
<i>ALDH2</i> -rs886205-RC	CTCGCCTTGGTTGAGCCCC	64°C

Legend supplementary table S2:

For amplification of the rs886205 promoter fragment, ALDH2-rs886205-F and ALDH2-rs886205-RC were used as primers.

The primer ALDH2-rs886205-RC was used for reverse sequencing of the respective fragment.
