Supplementary Table 2. Isocenter shift caused by rotational corrections compared to translational correction only.

| | 4) | 5) | 6) |
|-------------------|-----------------|-----------------|------------------|
| | Bony rotations | Constrained | Unconstrained |
| Mean [range] [mm] | | Rotations | rotations |
| | 1.1 [0.1 – 5.4] | 2.2 [0.6 - 6.3] | 4.0 [0.2 - 30.0] |
