

Supplementary Figure Captions

Supplementary Figure 1. Event-related potential waveforms for 29 scalp electrodes time-locked to the coordinator (*and*) or the placeholder (###) for natural list and natural coordination conditions in Experiment 1.

Supplementary Figure 2. Event-related potential waveforms for 29 scalp electrodes time-locked to the coordinator (*and*) or the placeholder (###) for natural list and natural coordination conditions in Experiment 1.

Supplementary Figure 3. Event-related potential waveforms for 29 scalp electrodes time-locked to the first word of the trial (e.g. *sunlit*) for natural list and natural coordination conditions in Experiment 1.

Supplementary Figure 4. Event-related potential waveforms for 29 scalp electrodes time-locked to the coordinator (*and*) or the placeholder (###) for natural list and natural coordination conditions in Experiment 1.

Supplementary Figure 5. Event-related potential waveforms for 29 scalp electrodes time-locked to the coordinator (*and*) or the placeholder (###) for natural list and natural coordination conditions in Experiment 1.
