

## Supplement: Spontaneous rhythms in a harbor seal pup calls

Andrea Ravignani

Table 1. The 'short' distributions (second and third rows) do not differ from each other (2 sample Kolmogorov-Smirnov test,  $D=0.10$ ,  $p=.99$ ). The 'all' distributions (fourth and fifth rows) do not differ from each other (2 sample Kolmogorov-Smirnov test,  $D=0.04$ ,  $p=.99$ ).

	n	mean	median	standard deviation
call duration	64	976.1	940.5	205.7
short inter-onset intervals	27	1983.2	1776.0	722.1
short inter-peak intervals	28	2020.8	1789.5	803.3
all inter-onset intervals	63	8578.3	5190.0	7807.4
all inter-peak intervals	63	8574.6	5284.0	7839.8
