Supplemental Material S3. Distribution of novel content.

Proportion (and total number) of novel words produced by participant and set.

	Sets in Order of Treatment*	BL- Unique	BL- Shared	TX- Unique	TX- Shared	Total Post- Treatment Novel Words
	Set 1	.20	.16	.43	.21	70
P1	Set 1	.31	.23	.25	.21	48
	Set 3	.27	.22	.27	.24	41
P2	Set 2	.05	.35	.30	.30	20
	Set 3	.14	.29	.30 .29	.30 .29	21
	Set 1	.00	.46	.08	.46	13
P3	Set 2	.16	.19	.00 .41	.23	104
	Set 1	.10	.15	.41 .40	.33	105
	Set 3	.11	.13	.40 .40	.33 .29	103
_						34
P5 P4	Set 2	.38	.06	.38	.18	
	Set 3	.29	.03	.35	.32	34
	Set 1	.20	.07	.37	.37	30
	Set 2	.12	.10	.53	.24	90
	Set 3	.14	.11	.48	.27	83
	Set 1	.26	.16	.28	.30	50
P6	Set 3	.13	.21	.38	.28	39
	Set 2	.14	.11	.57	.17	35
	Set 1	.21	.24	.27	.27	33
P7	Set 1	.21	.11	.45	.23	62
	Set 2	.19	.13	.50	.18	68
	Set 3	.41	.34	.09	.16	32
P8	Set 2	.12	.07	.53	.28	129
	Set 1	.11	.12	.46	.31	114
	Set 3	.13	.12	.47	.28	95

Note. P = participant; BL = novel words that also occurred at baseline; TX = novel words that only occurred after treatment; Shared = novel words produced in response to more than one stimuli set; Unique = novel words only produced in response to a single stimuli set. The largest proportion(s) for each set are indicated in bold type. *Sets listed in order of treatment so that the third set listed is the untreated set, except for P6, which had treatment applied to all three sets.
