Dear Professor Dr. Daniel J Klionsky, Editor-in-Chief

Autophagy

We hereby resubmit the manuscript entitled, "Antioxidant Role of Autophagy in Maintaining Integrity of Glomerular Capillaries" for consideration to *Autophagy*.

We carefully edited the manuscript to respond to the editor's comments and requests. As suggested, we revised the manuscript as following: 1) We updated the nomenclature, acronyms, and fonts in our manuscript body, table, and the main and supplementary figures according to the edited text. 2) We added a separate table about the gene manipulations after the abbreviation list. 3) We enhanced the abbreviation list.

We believe that the revisions have significantly improved the clarity of the article.

Sincerely,

Yoshitsugu Takabatake, MD.

Associate Professor, Division of Nephrology
