Verbal Immediacy	5.83(1.57) _a .78	6.03(1.86) _a .83	5.78(1.90) _a .77	5.88(1.82)
Sample Size	268	419	515	1202

Note. CH: Chinese in the US sample; AMAB: US Americans who studied abroad sample;

AMUS: US Americans in the US sample. Each variable was computed by taking the average of all the items for that variable if there were no fewer than two responses. One-way ANOVA was conducted for each variable across the three samples. The subscripts show the results of the post hoc tests: Sample means that did not differ significantly were assigned the same subscript. The subscripts a, b, and c were assigned to means ranked from the highest to the lowest.
