

Data sharing barriers: An Indonesia's context

Barriers:

- Culture
- Knowledge and skills
- Infrastructures

The higher
the wall
means
more
barriers

National-strategic
discoveries eg: energy
resources

Commercial/patented
discoveries

Closed research culture,
closed national law

Peer-pressure from senior
researchers (PI): fear of
scooping

Less influence of junior
researchers

High cost of
infrastructures

Foundation of science:
Discovery
