

An aerial photograph of a vast tea plantation in a hilly region. The tea bushes are arranged in neat, terraced rows that follow the contours of the hills. The color is a vibrant, saturated green. Scattered throughout the landscape are several tall, slender trees, likely pine or similar species, which stand out against the dense tea fields. The lighting is bright, suggesting a clear day, and the overall scene is one of a well-maintained agricultural landscape.

menjaga air

arif susanto dan dasapta erwin irawan

sosialisasi program pengabdian kepada masyarakat institut teknologi bandung

di kawasan Pangalengan, Jawa Barat
20 November 2018

air mengalir di dalam tanah,
sampailah ke ...

ke mata air

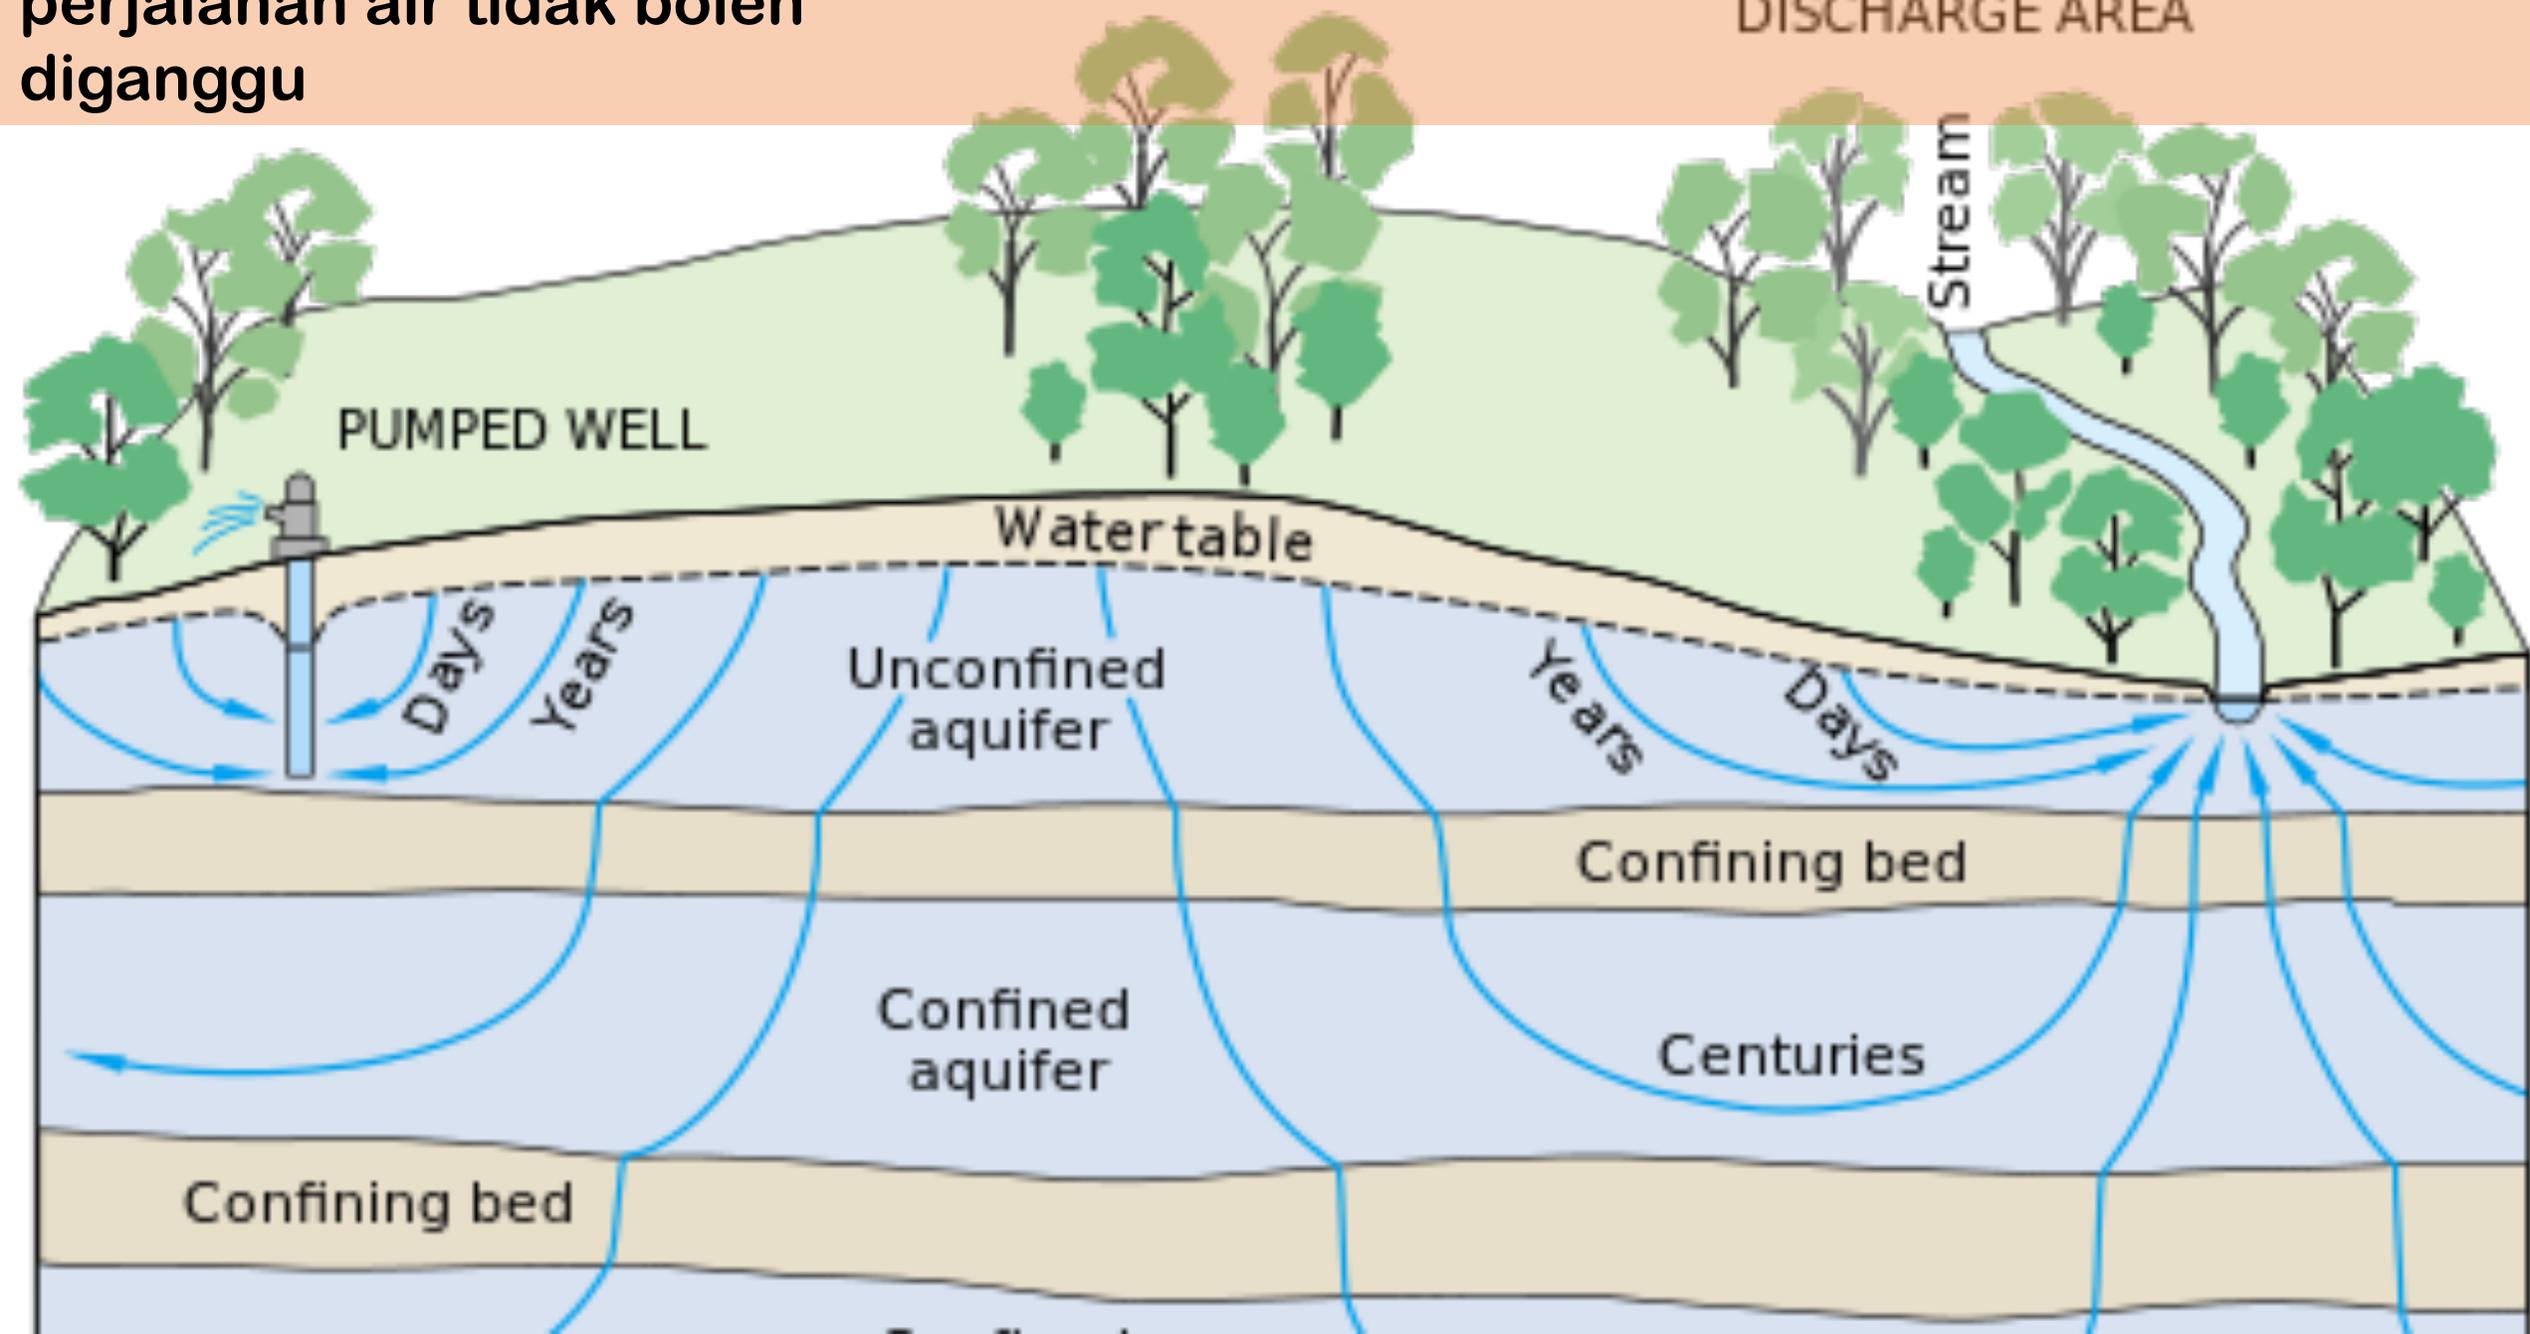

ke sumur

RECHARGE AREA

DISCHARGE AREA
