4. Do people in your household use the forest in any way? If so, for what?

 \square Yes, Private (1) \square Yes, Rented (2) \square Yes, Squatting (3)

These can be practical uses, for example hunting, fishing, catching crabs, collecting certain plants; or can be for gardening, for hiking, for enjoyment, for employment.....You may need to help the person think about certain uses. Write as many uses as the person mentions, but maximum four. If someone works in the protected area, make sure it is listed here. For each use ask the gender of the user, how frequently this is practiced, and when last, where it takes place (to know whether it is inside or outside the protected area), whether it is for personal use or provides income and if so, where it is marketed, and whether the use can be quantified (amount collected or prices for which sold).
