20 answers

How much time did it take to find your answer ?

20 answers

The results are well presented

20 answers

Do you have any suggestion or comment?

5 réponses

The results are not very intuitive for biologists

NO RESULTS !

Les résultats suite à une "quick search" peuvent être améliorés. il faudrait rajouter le nom de la source (en plus du lien). Serait il possible de savoir si on a trouvé un résultat (section gene, pathway, ontology...) comme pour la recherche avancée où l'information est bien présentée.

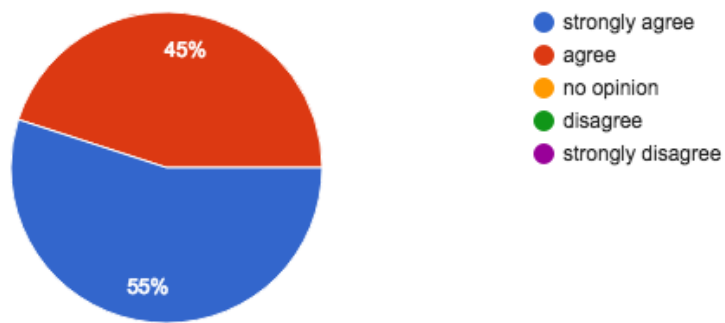

column names are not user friendly and page is not the same website anymore: confusing

The output pages should be more readable for users
