Data management of General Movements Assessment videos

CLINICAL FACT SHEET

Governance

Informed consent from parents/caregivers is required prior to capture of any General Movements (GMs) videos.

Clinical digital imaging forms part of the patient medical records.

Any cloud secure clinical data content share system and database needs to meet legislative and information management security classification requirements.

Consultation with Health Information Management, Clinical Information Management and Information Communication Technology stakeholders may need to be considered in the implementation of GMs programmes in local areas.
