# Example Personals Ad

**Name:** Google Scholar

**Age:** Let's just say I'm not as old as I look (11!)

**Occupation:** A simple way to broadly search for scholarly literature

**Physical description:** Articles, theses, books, abstracts, and court opinions from academic publishers, professional societies, online repositories, universities, and other websites

**Weakness:** Citation counts can be manipulated and fake articles can be created and indexed

**My ideal vacation:** Google HQ in Zurich

**Interests:** Any topic under the sun

**My "secret" talent:** Ability to see all the times a particular article is cited in other articles, called "cited by"

**My best quality:** Search me

**My ideal date:** Racing down the slides or riding bikes inside Googleplex

**What's in it for you:** You can locate any complete document through your library or on the web

F R O S T & S U L L I V A N

**Name:** Frost & Sullivan

**Age:** More than 50 years of experience in global consulting and market research

**Location:** 45 offices worldwide – on every continent except Antarctica

**Background:** More than 1,800 analysts tracking 1,000+ emerging technologies across 15 industry sectors

**Physical description:** Tens of thousands of market research reports, with new reports released daily

**Interests:** Trends, SWOT analyses, and emerging technologies

**You'd be surprised to know:**

Most of my reports have easy to decipher charts and infographics.

**My ideal dinner guest:**

The CEOs of Fortune 500 companies because we are already close friends

**In search of:** Flying car manufacturers – I have identified flying personal transportation as a top 2018 trend to watch. Look out for flying taxis in Dubai!

## Getting to Know a Database

---

- ❖ **How would this database meet your research needs?**
- ❖ **How would this database be useful for your major?**
- ❖ **What are some ways that you can limit/narrow results?**
- ❖ **What are some of the database's special features/tools?**
- ❖ **To whom would you recommend this database?**
- ❖ **Is this database easy or difficult to use?**
- ❖ **What do you like or dislike about this database?**

## **SPEED DATABASING**

# **The First Date (and second, third, fourth ...)**

---

- ❖ **At the bell, students have 3-5 minutes to review profiles, search in the databases, and take notes**
- ❖ **At the next bell, students have a minute to wrap up, then move on to the next database**
- ❖ **The process repeats until the end of class**
- ❖ **Students complete a follow-up homework assignment (*optional*):**
  - **Answer questions about a favorite database**
  - **Create an original profile for another database (one they did not meet during class)**

# Student Database Profiles

**Name:** Access Science

➡ **Age:** Age is just a number

**Location:** No matter where you are, whether it's a quarter-mile away or halfway around the world, you'll always be with me and you'll always be my researcher

➡ **Religion:** Nope, database of science

➡ **Physical description:** Don't want to show off but super big like 8,500 articles and research reviews big, with a nice 115,000+ definitions. Don't get me started about the 3,000 biographies and the 18,000+ images

**Interests:** In my database, I cover all major scientific disciplines with high quality

**My ideal dinner guest:** Galileo Galilei

**Favorite vacation:** The Hale Telescope at the Palomar Observatory in San Diego, Calif.

**My secret talent:** Curriculum maps and mobile access

**Dream job:** President of science

# Student Database Profiles

**Name:** Accounting, Tax & Banking

**Location:** America – as most taxes listed are based in America

**My secret talent:** My special talent is I filter everything for you, and if you want (by clicking under the search bar) I let you check full text and if you want the ones with peer review

**My favorite hobby:** Tax auditing and going over information

**My favorite vacation spot:**

Washington, D.C., United States, where the main location for the IRS is

**My ideal dinner guest:** Martha Stewart because she would bring me some of her delicious home cooked meals; she would also be included in this database as someone who lied about their taxes and got caught

**In search of:** Business students and tax auditors

## SPEED DATABASING

# Student Database Profiles

**Name:** PhilPapers

**Age:** Very Old, contains tonnes of historical documents

**Location:** Everywhere

**Education:** Been around the world studying

**Physical description:** Contains journals, books, research paper on a wide variety of topics

**Interests:** Life

**You'd be surprised to know:** I speak 40 languages

**My ideal dinner guest:** Immanuel Kant

**In search of:** A person who gets getting me (epistemology!)

# Let's Play a Round of Speed Databasing! (Analog)

---

- ❖ Tables will be given several envelopes each containing a database profile and screen shots

- ❖ At the bell, open the envelope in front of you, read the profile, and review the screen shots

- ❖ On the handout, in the space for the given database, note your first impressions (keep this handout)

- ❖ At the next bell, hand your packet/envelope to the person on your right, take the packet/envelope from the person on your left

- ❖ Repeat until the round ends

# **Lessons Learned**

---

- ❖ **Offer a selection of databases to satisfy all majors and interests**
- ❖ **Depending on backgrounds and experience of participants, opt for a different name**
  - **Database Matchmaking**
  - **Database Roulette**
  - **Research Database Round Robin**
- ❖ **Tailor the handout to learning objectives**
- ❖ **Assess the activity using a variety of options**

## **SPEED DATABASING**

A Library Matchmaking Activity

## **Lessons Learned *cont.***

---

- ❖ **Five minutes is the ideal amount of time to read the profile and explore the database**
  - ❖ **Allow time in between the switch to take notes, reset the machines, stretch, etc.**
  - ❖ **Stow backpacks, bags, coats, etc. on the side of the room to avoid trip hazards**
  - ❖ **Rather than moving people, have them remain at one station but switch databases at the bell**
  - ❖ **Play ambient music**
-

## **SPEED DATABASING**

A Library Matchmaking Activity

## **Lessons Learned *cont.***

---

- ❖ **Provide example searches to spur imagination, but do not ask them to answer specific questions**
- ❖ **Activity can be adapted for different types of instruction sessions**
- ❖ **Speed Databasing is not just for students, it can be used with library staff and faculty, too**
- ❖ **Database profiles make great posters, handouts, bookmarks, LibGuides, or social media posts**

# Disclaimers

---

- ❖ **Speed Databasing enhances instruction**  
– *but does not replace it*
- ❖ **Students still need to learn the anatomy of a database before participating in this activity**
- ❖ **Speed Databasing does not address search techniques, such as selecting keywords, adding synonyms, or using operators**
