You have completed the review tasks. Thank you! Now please answer the following questions:

When you compare the last two reviews, i.e. the second and third review you performed: Which change did you understand better?

- ○ I understood the change in the second review (search algorithm) better than that in the third.
- ○ I understood the change in the third review (file system tasks) better than that in the second.
- ○ I understood both to the same degree.

Explanation (optional):

When you compare the changes in the last two reviews: Which change had a more complicated structure?

- ○ The change in the second review (search algorithm) had a more complicated structure.
- ○ The change in the third review (file system tasks) had a more complicated structure.
- ○ Both changes had similarly complicated structures.

Explanation (optional):

The patches we used in the review tasks stem from the jEdit open source editor (with some additional defects added by us). Do you have any experience with jEdit?

- ○ I have neither used nor contributed to jEdit.
- ○ I have used jEdit, but I have not contributed to the jEdit source code.
- ○ I have contributed to the jEdit source code.
