

Neurobiology of wild and hatchery-reared Atlantic salmon: how nurture drives neuroplasticity

Daan Mes, Kristine von Krogh, Marnix Gorissen, Ian Mayer, Marco A. Vindas

Supplementary File 2

The following macro script was used for quantification of labeled cells using the Fiji platform in ImageJ2.

```
1 run("Rotate... ");
2 run("8-bit");
3 setTool("polygon");
4waitForUser
5 run("Crop");
6 setBackgroundColor(0, 0, 0);
7 run("Clear Outside");
8 run("Threshold...");
9 waitForUser
10 run("Convert to Mask");
11 run("Fill Holes");
12 run("Watershed");
13 run("Analyze Particles...", "size=15-1000 pixel show=Outlines clear summarize");
```
