Cobaltmetrics: design rationale

Cobaltmetrics tracks all URIs, URLs, and typed PIDs.

Cobaltmetrics can only be queried by URIs.

Cobaltmetrics will never create new identifiers.

Cobaltmetrics will never create new scores.

URI $\approx$ citation $\approx$ mention $\approx$ event $\approx$ backlink

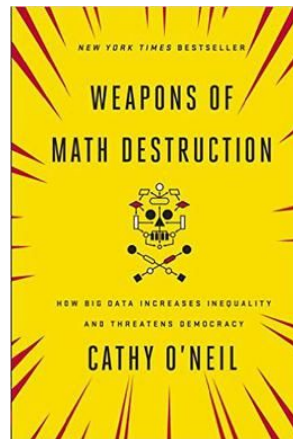

Altmetrics of math destruction

Are your altmetrics alt- enough?

Imbalanced datasets reinforce discrimination.

Diversity and **fairness** must be integral parts of how we drive our projects.

Cobaltmetrics: what's coming soon

Streaming APIs and rolling updates are great...

...but **altmetrics data needs to be citable**, too.

We're working on a versioning system (data+code).

Cobaltmetrics: what's coming soon

Journal-, publisher-, and DOI prefix-level **digests**,
with dynamic and unedited stats about our data.

= free and open quant. analysis of how much you miss
if your altmetrics aren't alt- enough.
