

Bibliography

Environmental Change Institute - Oxford University
Jory Fleming | Lucinda Ford | Edward Hornsby

Interviews & Seminars

Gomez-Baggethun, E. (2018). Guided simulations on marine policy and economics. Dr. Gomez-Baggethun is an expert in ecological economics and socio-ecological systems.

Jones, W.J. (2018). Interview on deep sea research, biodiversity & ecosystems. Dr. Jones is an academic who researches the deep sea, has discovered new species, visited the seafloor in the submersible Alvin, and is an expert in deep sea genetics and sustainability.

McCarthy, K. (2018). Interview on deep sea mining, government policy, and political landscapes. Ms. McCarthy is a current MP in the UK House of Commons & former Shadow Secretary of State for Environment, Food and Rural Affairs who played a leading role in the UK Deep Sea Mining Act of 2014, and is an expert on marine policy and politics.

Rogers, A. (2018). Nekton: the new voyages of discovery. Public Seminar. *School of Geography and the Environment: Technology Empowered Conservation Seminar Series*. Available at: <https://youtu.be/5YwIPNP4J6s> (Presented: 18 Jan 2018).

Thaler, A. (2018). Interview on deep sea mining policy, national and international governance structures, and public education and communication. Dr. Thaler founded a consulting and education firm focused on the ocean, and is an expert on marine geology and industrial mining policy in the Pacific Ocean.

News & Media

British Broadcasting Corporation (2018). Blue Planet II: The Deep.

Coates, A. (2017). Deep sea: Potential threats to Earth's 'final frontier' are growing. *The Independent*. [online] 1. Available at: <https://www.independent.co.uk/news/science/deep-sea-threats-earth-ocean-over-fishing-pollution-mining-a7741171.html> [Accessed 22 Mar 2018].
