CSSI Element: Comprehensive Time Series Data Analytics for the Prediction of Solar Flares and Eruptions

PI: Rafal A. Angryk (Computer Science), Co-PIs: Manolis K. Georgoulis (Heliophysics)

Institutions: Georgia State University

Presenter: Rafal A. Angryk, NSF program: Office of Advanced Cyberinfrastructure (OAC)

Can we build a reliable system for big data-driven prediction of space weather?

- 8 years of data
- 13k of solar flare reports
- 4k MVTs instances
- and a lot of challenges...

Please, see our poster!
