Chi-Cheng He, Yue-Qiao Zhang, Shao-Kai Li, Kai Wang, and Jian-Qing Ji, 2021, Magnetostratigraphic study of a Late Cretaceous–Paleogene succession in the eastern Xining basin, NE Tibet: Constraint on the timing of major tectonic events in response to the India–Eurasia collision: GSA Bulletin, <https://doi.org/10.1130/B35874.1>.

Supplemental Material

APPENDIXES

Appendix Data Set A1. Zhongba paleomagnetic raw data.

Appendix Figure A1. 3-D topography view of the sampled Zhongba section and the detailed connection pattern of subsections

Appendix Table A1. Rock magnetic results (AMS parameter) from the Zhongba section.

Appendix Table A2. U-Pb (zircon) geochronological analyses of Zhongba section by LA-ICP-MS.

Appendix Table A3. Accepted CHRM directions and VGPs of the paleomagnetic samples from the Zhongba section
